## **1.0 General Information**

### **1.1 Background**

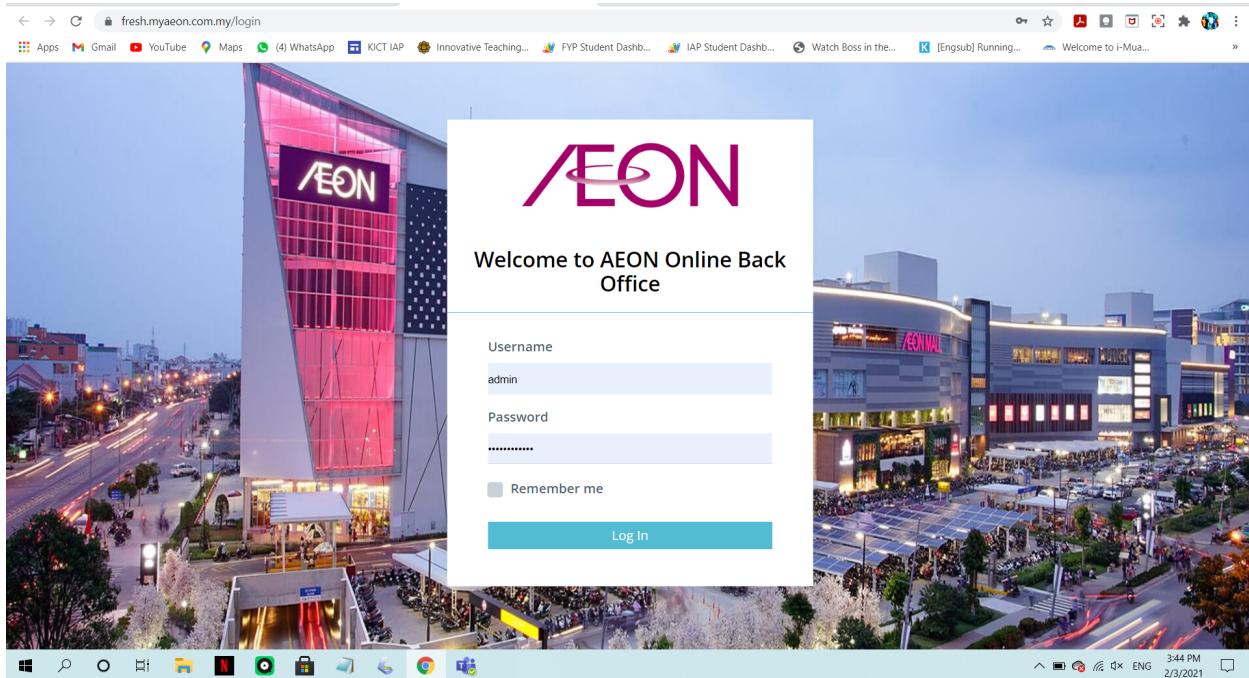

AEON has provided new ways for shoppers to buy their groceries during the lockdown period due to COVID-19 in Malaysia. AEON launched an online grocery platform which is AEON Fresh. AEON Fresh is a new supermarket online service that was launched on 14 July 2020. The service provides delivery within 30 minutes of its fulfilment centres. Fresh fruits, vegetables, meat and all other daily essentials will be available online.

### **1.2 Scope**

AEON Fresh back-end handled by E-Commerce team. The back-end application can manage all the items that are displayed in the AEON Fresh official website and also can generate AEON Fresh sales.

## 2.0 AEON Fresh Back-End

### 2.1 Login Page

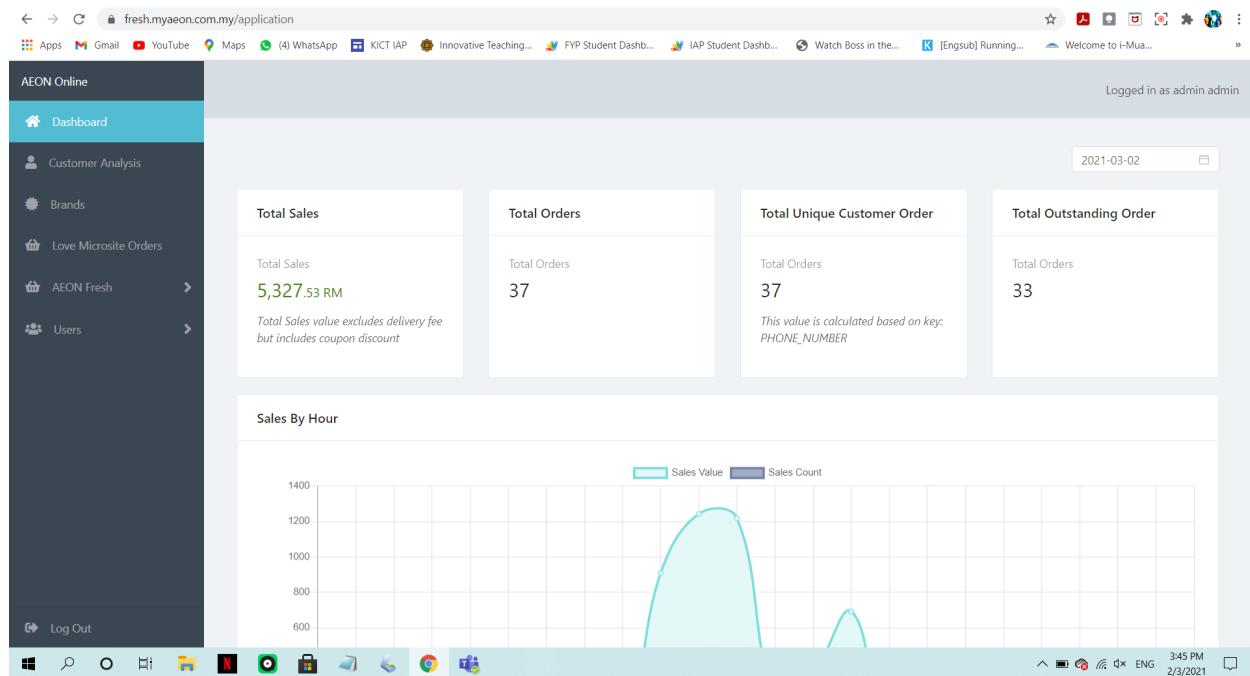

Display and Functionality: Login Page - The system provides access via the web-based client				
ID/Number	Element	Functional Requirement	Mandatory	Remarks
2.1.1	Home Page	The system provides login access to the administrative management of AEON Fresh	Yes	
2.1.2	Username Text Field	On click within the text field, the user enters their username	Yes	System checks username and password provided if the user is known to the system, else an error message is displayed & system stays on the Login page.
2.1.3	Password Text Field	On click within the text field, the user enters their password	Yes	

## AEON Fresh Functional Documentation

2.1.4	Login Button	The Log in Button functionality depends on both the username and password text fields being filled out by the user. If there is no error message displayed, the button will be redirected to the AEON Fresh Admin Dashboard	Yes	
-------	--------------	---	-----	--

## AEON Fresh Functional Documentation

The screenshot shows a web-based application interface for AEON Fresh. The left sidebar has a dark theme with white text and icons. It includes links for Dashboard, Customer Analysis, Brands, Love Microsite Orders (which is highlighted in blue), AEON Fresh, and Users. At the bottom of the sidebar are Log Out and AEON Online Back Office | 2021 links. The top right corner shows a message: "Logged in as admin admin". The main content area is titled "Love Microsite Orders" and contains a sub-section titled "Order List". A table header is visible with columns: Order Number, Customer Full Name, Customer Email, Customer Phone Number, Ordered At, and Options. The bottom of the screen shows a Windows taskbar with various pinned icons and system status indicators.

Display and Functionality: AEON Fresh Customer Analysis				
ID/Number	Element	Functional Requirement	Mandatory	Remarks
2.2.3.12	Love Microsite Orders	On click the Love Microsite Orders dropdown sidebar button to view the order list.	No	

## 2.3 AEON Fresh Dropdown Button Sidebar

### 2.3.1 Website CMS: Banners

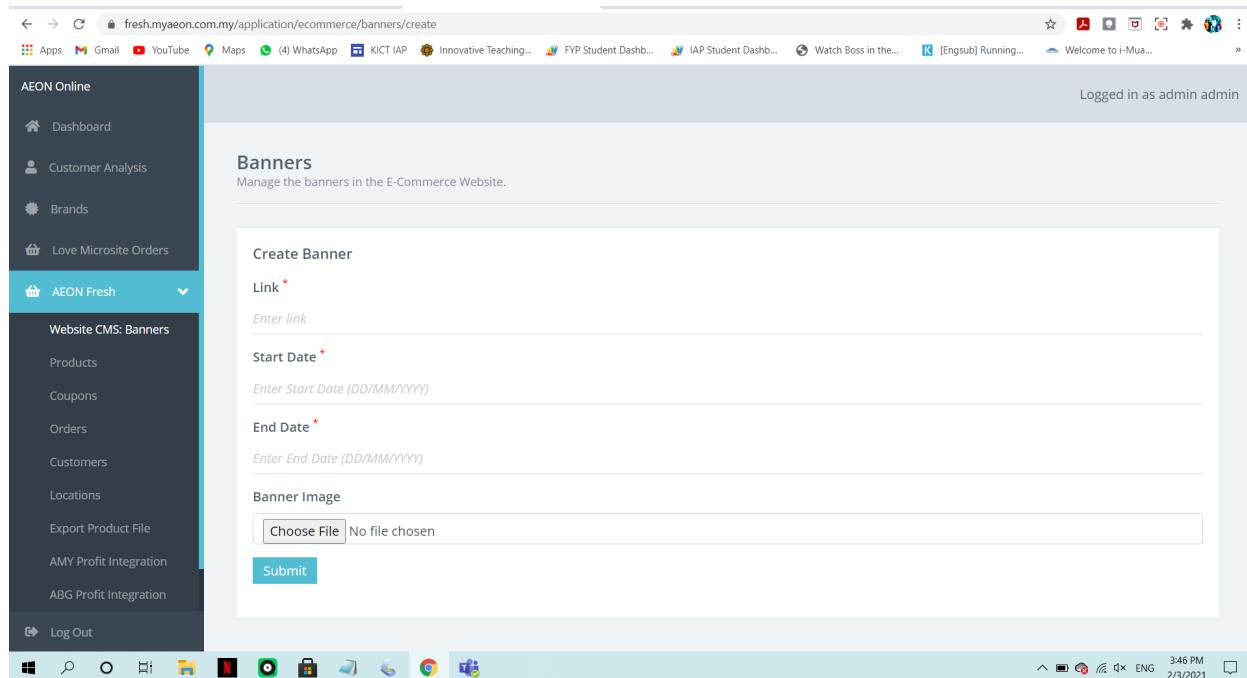

The screenshot shows the 'Banners' section of the AEON Fresh Website CMS. The left sidebar has a 'Website CMS: Banners' section with options like Products, Coupons, Orders, Customers, Locations, Export Product File, AMY Profit Integration, ABG Profit Integration, and Log Out. The main area shows a search bar for banners with fields for Start Date and End Date, and a 'Search banners' button. Below is a table with three rows of banner data:

#	Link	Start Date	End Date	Options
1	<a href="https://myaeon.com.my">https://myaeon.com.my</a>	01/01/1970	03/08/2020	<a href="#">Edit</a>
2	<a href="https://myaeon.com.my/microsite/send-your-love">https://myaeon.com.my/microsite/send-your-love</a>	01/01/2020	01/01/2022	<a href="#">Edit</a>
3	<a href="https://fresh.myaeon.com.my/chinese_niu_year_tnc.jpg">https://fresh.myaeon.com.my/chinese_niu_year_tnc.jpg</a>	05/02/2020	08/02/2020	<a href="#">Edit</a>
